Comment from long-time Jerry Williams listener in Ill. re 4/6 show:

"I heard you last night on the Jerry Williams Show. I was shocked at the treatment you got from him and his guest. However, I feel you were the clear winner in that "debate". Williams' repetitious plugging of that "fascinating book" made me ill and made me suspect he's been bought off by someone. I haven't read the other guy's book on the King assassination yet, but from his spiel over the radio it sounded like a paid whitewash..."
